The pedigree chart illustrates the inheritance of the 12S rDNA polymorphism across three generations (I, II, III). The chart uses symbols for males (squares) and females (circles) and shows the transmission of alleles (Ivanka F., Vcelis J., Karczyk F., Prugalewicz I., Pankovs D., Ivanka M.) with associated probabilities (0.5:0).

- Generation I:**
 - Ivanka F. (female) and Vcelis J. (male) are parents of Generation II.
 - Karczyk F. (female) and Prugalewicz I. (female) are parents of Generation II.
- Generation II:**
 - Ivanka F. (female) and Vcelis J. (male) are parents of Generation III.
 - Karczyk F. (female) and Prugalewicz I. (female) are parents of Generation III.
- Generation III:**
 - Ivanka M. (female) is the daughter of Karczyk F. and Prugalewicz I.
 - Pankovs D. (male) is the son of Karczyk F. and Prugalewicz I.

The chart shows the transmission of alleles (Ivanka F., Vcelis J., Karczyk F., Prugalewicz I., Pankovs D., Ivanka M.) with associated probabilities (0.5:0).
